

HOMEBUYERS DIRECTORY

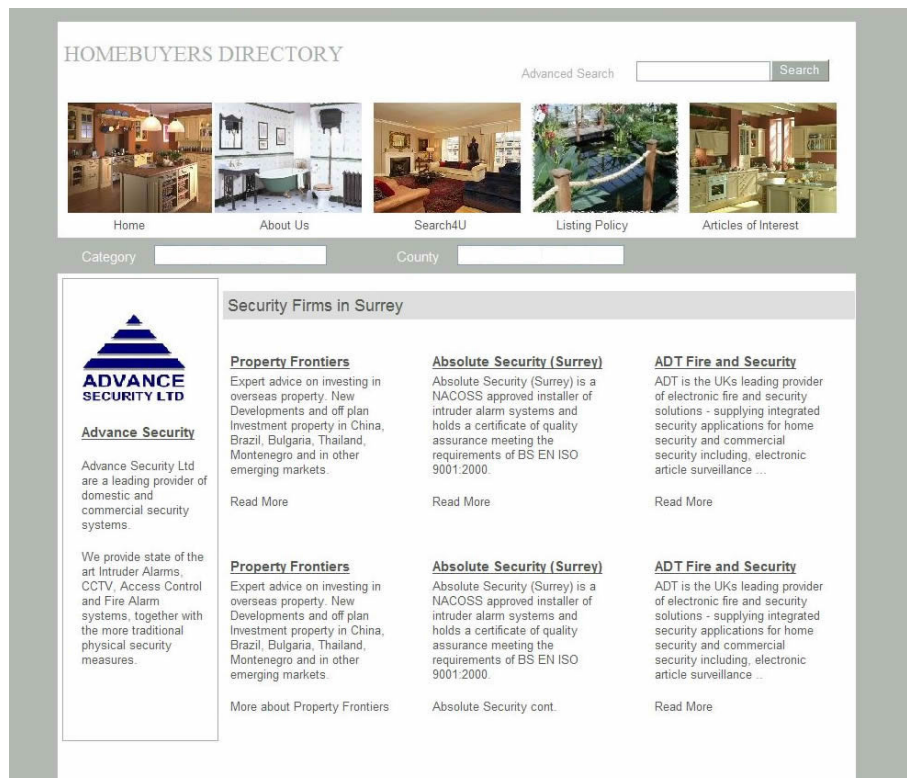

HAND-PICKED LISTINGS ENHANCE YOUR INTERNET PRESENCE

ABOUT THE DIRECTORY

Entries in the Homebuyers Directory are restricted to 25 per category per county to ensure your company gets maximum exposure.

This also benefits visitors to the site who know that the listings have been hand selected by us to guarantee the quality of the goods or services on offer.

NEW LOOK

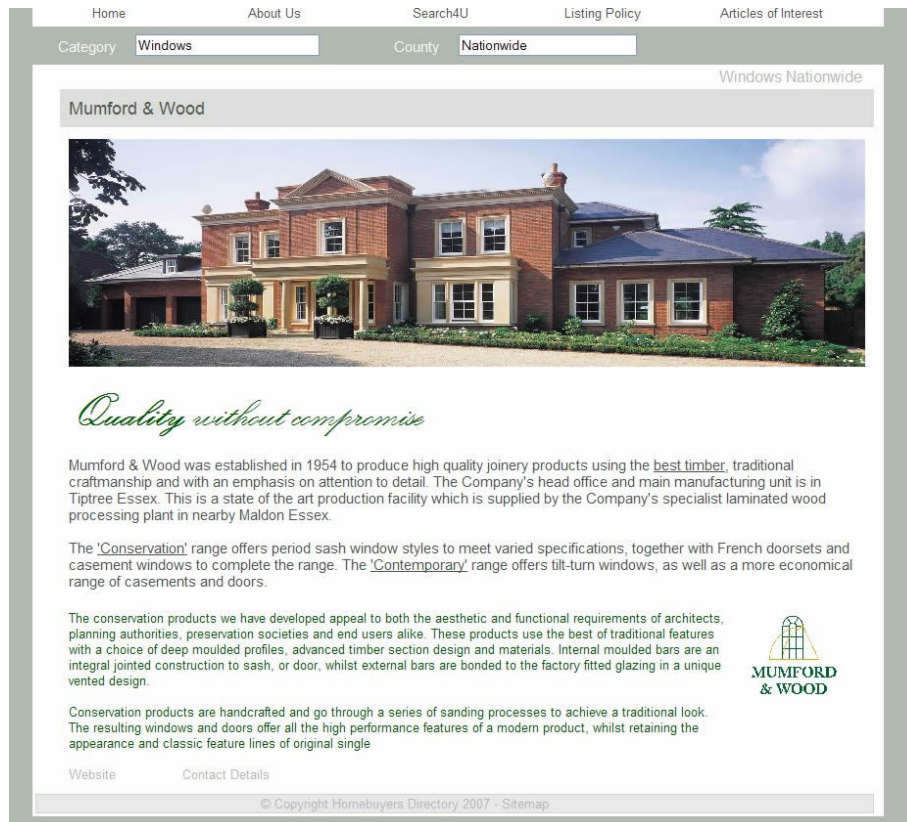

Our investment in state of the art, tailor made, software to operate the Homebuyers Directory should bear fruit from July this year when the new look site comes fully on-line.

Each entry in the Directory will then have its own full page Brochure presentation with a link to your existing web site and ample opportunity to add attractive images to enhance presentation.

SEARCH ENGINE OPTIMISATION

Every page on our site uses advanced programming to guarantee maximum search engine exposure for the specific keywords or phrases which potential customers will use to search for the goods or services you offer.

The site was designed with search engine optimisation in mind and the software includes a range of tools to help improve the search engine rankings.

USER FRIENDLY

Our new system will allow you to log on at any time of day or night and edit your listing, check how many hits your page has had, create and save reports, manage added account elements such as sponsorship of a category or special promotions.

UP TO DATE

This accessibility means your page will always be up to date. If you start selling a new and highly sought after product, just add the product name to your keywords and your page will start working its way up the rankings for that word as soon as the search engine spiders find it.

Of course we invite the spiders round to feast on your pages on a regular basis and as we provide new information for them all the time via our articles and promotions you can be sure they'll find your newly added information soon!

AFFORDABLE & ATTRACTIVE

A full page listing in the Directory costs less than £1 per day. Not only is that far cheaper than any pay per click campaign, the Homebuyers Directory itself has been designed as an information rich destination site with a reputation for quality. The Homebuyers Directory is a magazine style site providing in-depth articles to attract both visitors and search engine spiders. Our human editors make sure the information in the articles corresponds directly to the goods and services you provide. Your advertising with us is fully targeted.

RATES

Our introductory offer takes into account the fact that the new site design and administration system will not be fully on-line until the beginning of July this year, so, although your invoice will be for a 12 month listing, you will not be re-invoiced for subsequent years until July 1st if you join us between now and end of June 2007.

Rate: £350 per year plus vat

ENHANCED LISTINGS

In addition to your automatic full page listing, we offer additional categories, enhanced sponsored listings for each category in each county and promotional opportunities on our main category and articles pages for companies which operate Nationwide.

One additional Category/County	£120
Two additional Categories/County	£100 each
Three additional Categories/County	£80 each
Four or more additional Categories/Counties	£60 each

All listings allow you to include an image which must be no wider or taller than 160px for the left hand side logo box. Within the listing itself, you can call images from your existing web site for inclusion in your listing by using html.

All the examples you see in the examples section can be created by you using our wysiwyg editor, for the basic listings, or html for the fancier ones if you are familiar enough with it and happy to use it. If you would like us to create the page for you, we can do this for a £50 one off fee.

Property Investment in London

YOUNG GROUP
Property Portfolio Managers

Young Group

Young Property only sells off-plan property that we own and that match our very strict criteria. We focus on property in London.

Our investment opportunities offer growth potential based on future improvements, for example new transport links, town centre regeneration, or new business or retail development. We only deal with reputable developers with whom we have an established relationship.

By working closely with them we secure the best units and prices. Alternatively we may purchase an entire development. This allows us total control to optimise the units for long-term investment. Young Group retains properties in these developments for its own portfolio.

First Floor, 71 New Bond Street, London, W15 1DE

Bulgarian Dreams

About Bulgarian Dreams

Our History

Robert Jenkin started Bulgarian Dreams in 2002, incorporating as Berkeley Square Trading Limited in the U.K. in early 2003. Since then the business has grown to become one of the leading property specialists for Bulgaria. Continued investment in the business infrastructure and personnel has enabled us to offer a diverse and competitively priced portfolio of property developments, together with high standards of client service.

Award Winning Properties and Service

Bulgarian Dreams are pleased to announce the following awards for 2004 and 2005:

- Best Bulgaria Real Estate Agency 2006, 2005 & 2004
- Best Bulgarian Development 2006 & 2004
- Best Bulgarian Apartment 2006
- Best Real Estate Agency Website 2005
- Best Bulgarian Estate Agent 2004
- Best Bulgarian Development 2004

Industry Memberships

We are committed to the highest levels of service and as part of this we are voluntary members of overseas industry associations. By complying with their codes of conduct as well as helping to improve general industry standards we can offer clients a level of comfort not available from other agencies.

Locations

Our head office is situated in Moorgate at the heart of London's financial district, close by to Liverpool Street station for easy accessibility for our clients.

We have regional offices in all areas where we offer property in Bulgaria for local client liaison and property management. Currently Sofia, Bansko, Pamporovo, Sunny Beach and Golden Sands.

Our Team

With experience in property, finance and customer services, our team is well positioned to help you with every aspect of your purchase. Please find a brief summary of our key

**The BORDER
DESIGN CENTRE**

Border Design Centre

Established in 1961, The Border Design Centre is the oldest timberframe buildings specialist in Scotland, and one of the oldest three in the UK. Our principal, Ian Scott Watson, has built a reputation second to none for unique and innovative homes, setting trends later followed by practically all other timberframe companies in the country.

Around 2,000 happy customers later, living in one-off designed homes located all over the UK, and as far afield as the Falkland Islands, can all bear testimony to our determination to design your house not only to satisfy your own aspirations, but to make the best use of your site.

Also, our business is not restricted to houses - design work has also encompassed hotels, school buildings, offices, village halls, holiday cottage and leisure developments, a golf course and even a complete motor racing circuit.

If you are contemplating building a house and are keen to have something not only distinctive but well conceived and eminently practical in internal layout and utilising the best quality materials and finishings, please do not hesitate to contact us to discuss your ideas or plans.

As one of the UK's oldest timberframe home companies, The Border Design Centre produce homes with individuality, quality, flair and above all they are

To inserting images from your site or hosting them on our server for inclusion in your listing.

The possibilities are endless. You can have links from your directory listing text which click through to individual pages in your own web site.

We can work with you to create your listing from a simple text file or Word document and image, through ready to cut and paste html, to full creation of the page as shown above.

Some companies are listed in more than one category for quite diverse products. You can either have the same text for both listings or change the text and images according to the relevant category.

Corner Fridge

The Corner Fridge has been likened to a Tardis as it offers 1300 litres of capacity, yet takes up only one square metre of floor area. Compare that to a conventional refrigerator, offering roughly one third and American style refrigerators which offer approximately half the capacity.

- 2 year guarantee
- 1300 litres of capacity
- Stainless Steel door option
- Chrome shelves - easily adjustable
- 5 adjustable door shelves
- Digital temperature reading
- Door can be left or right hinged
- Accessories package included
- Available as a freestanding model
- Easy to integrate - only requires standard kitchen feature.
- Easy to assemble
- White interior with scratch resistant surface
- Interior of door is Stainless Steel
- Optional 5 year warranty

Power Supply

A 3 metre flex with a plug for a 13amp earthed socket.

A 13amp earthed socket outlet is required on the right hand wall 80cm from the corner and 220cm from floor level.

Noise Level

When the compressor is running, the noise level is 46db, measured 1metre from the door. Depending how often the door is opened the compressor will stop and start, so that the temperature stays within 2 degrees of the thermostat setting. If the compressor is not running the noise level is 39dB.

Because glass is naturally beautiful and accumulates heat, it is perfect as the primary material for Solaris electric radiators. Solaris consist of two connected sheets of glass; one for heating and one for decoration and heat diffusion.

With its exclusive technology and large flat surface, as well as the lack of screen (perforated metal sheet or grid), Solaris develops an extraordinary radiation capacity, higher than that of most other radiant panels on the market. The heat emitted is felt immediately by the body. It does not rise, but helps to maintain a uniform temperature. No difference in temperature between the floor and the ceiling (2.5m height)

Convection Heating

Circulation of hot, dry air - large difference in temperature between floor and ceiling (up to 6°C difference).

Radiation heating with OHDS technology

Uniform temperature from floor to ceiling (difference of about 1°C).

This gentle, enveloping heat doesn't dry the air or circulate dust particles because there is no fan and no resistance in contact with ambient air. The atmosphere is clean and healthy, which is an important point when you are concerned with the quality of air. The smooth glass surface simplifies cleaning.

The practical baseboard unit is only 45cm high and can easily be installed under a window, a sloping roof, in attic rooms or rooms with reduced height under a window.

The visible, decorative surface is made of extra-strong glass, identical to that used for external building façades, so it is extremely long-lasting. The temperature of the Solaris is also controlled and restricted, to avoid any risk of burning.

With Solaris, heat convection is limited so you don't have to overheat for comfort. This means you can lower the setting on the thermostat. By lowering this just 1°C you save 5% of energy, according to heating experts such as the CIB.

CHILSTONE

Chilstone

CHILSTONE

CHILSTONE specialise in reproducing, with complete accuracy and attention to detail, some of the most beautiful and elegant antique garden ornaments and architectural stonework in the world.

Each piece is handmade in reconstituted stone by a special process, originally developed in 1953, to ensure a finished texture virtually indistinguishable from natural stone.

The colour and texture of the material is midway between Portland and Bath stones, and its composition encourages the spontaneous growth of mosses and lichens, which rapidly gives it the aged quality of the original.

In addition to our existing range of ornaments, our workshop specialise in copying and originating ornaments and architectural details to customers' requirements and we are always pleased to advise on any new ideas you might have.

This service operates over a comprehensive field, from the purely domestic interior and garden, to public buildings and settings, such as hotels, parks and churches.

CHILSTONE produce an extensive range of Architectural Ornaments and Stonework, including porticos, architraves, corning, coping and quoin stones, window surrounds, balustrade and more..

Chilstone was established in 1953 and is still entirely hand made by local craftsmen, giving us the kind of control during the production process which enables us to readily adapt our standard items to your requirements. It is also ideally suited for restoration work and our skilled craftsmen and team of mouldmakers are able to reproduce from an original or from detailed drawings exactly to your requirements.

CHILSTONE is not only used for exterior embellishment, but is also eminently suitable and adaptable for interior

Bennett and Co Solicitors and International Lawyers

Bennett & Co. provides a comprehensive legal service to private and commercial clients who require legal advice and assistance overseas.

Geographically our areas of specialisation are the Cape Verde Islands, Caribbean, Cyprus, Dubai, France, Greece, Italy, Morocco, Portugal, Spain and Turkey. We have associated firms in most of these countries providing a high standard of expertise in their chosen field.

We never delegate matters to junior staff so you know that your requirements are in the safest of hands.

Bennett & Co. is a firm of English Solicitors regulated by the Law society of England and Wales specialising in international property transactions and law. We are a practice handling only Overseas Property transactions and Inheritance matters.

We deal solely with the legal side of a property transaction and do not become involved in the marketing of the property.

We are totally independent, having no association with any Estate Agent, Property Developer or Financial Institution. Consequently, when acting on behalf of a client we have no conflict of interest and our services are directed to the benefit of our client solely.

We welcome all potential clients. To contact or to register with us, without obligation, for an initial discussion or interview of your requirements simply visit The Personal Service section of our website.

We have associated firms/offices overseas namely in Spain (Alicante, Barcelona, Benissa, Girona, Madrid, Mallorca, Marbella, Tenerife and Torrevieja), Portugal (Lisbon, Oporto and

Arbor Window Systems

External Doors

The external range incorporates 68mm thick door leaves, which are suitable for 28mm thick double glazing units. Toughened safety glass is fitted at the factory as standard, with a low "E" coating to the inner pane, complying with the latest British Standards.

Other glazing options are available, including laminated and tinted glass and argon gas filled units. Integral Venetian blinds can also be specified, which are incorporated within the double glazed unit.

Security is always an important factor with external doors and the Arbor design incorporates multi point locking to the pass door and key lockable flush bolts.

All glazing is internally beaded, further increasing the resistance of each door to forced entry.

Timber options include European Oak and a selection of durable hardwoods. Doors and frame are normally supplied fully factory finished in microporous stain or paint, and Oak systems can be treated with an oiled finish. If requested, door sets can also be supplied untreated for on site application of your chosen finish.

Internal Doors

Arbor Internal sliding and folding doorsets incorporate single glazing as standard. Door panels are 44mm thick, and incorporate seals for effective draught proofing and acoustic attenuation. Opening and stacking options are the same as for the external range which together with matching timber profiles ensure a consistent look across all of our product ranges.

The bottom guide channel can be supplied as an integrated part of the timber threshold or, if a completely flush floor finish is required between rooms, then the channel can be supplied loose for site installation by others as part of your flooring finish.

More timber options are available for the internal systems compared to the external systems and a wide range of suitable hardwoods and softwoods can be specified. Doors are normally factory finished, although primed/sealed only options are available if finishes need to be site applied.

Archer Bramley

Archer Bramley Ltd

Tax planning strategies

Archer Bramley provides the full range of traditional regulated financial planning products as well as providing proactive ideas and strategies to businesses and their owners to minimise the impact of:

- income tax
- capital gains tax
- inheritance tax

Property Investment Nationwide

Cameron and Cameron

**CAMERON
&
CAMERON**

ASSET MANAGEMENT

Cameron & Cameron Asset Management is a boutique investment management firm providing wealth management services and products on behalf of institutional, professional and private clients worldwide.

Our particular field of expertise lies in creating regulated investment funds with an emphasis on commercial, residential and intellectual property in both established and emerging markets.

We pride ourselves on our ability to provide our clients with creative and innovative solutions to their fiscal requirements.

For our investors we strive to deliver private equity style exposure, and returns, to alternative asset classes.

Cameron & Cameron is a boutique fund management group established in order to provide private equity style exposure to alternative asset classes through regulated investment funds.

Cameron & Cameron is owner managed and controlled, with its key personnel incentivised on the performance and profitability of the business and the underlying investment funds. The company's entrepreneurial culture and structure has allowed Cameron & Cameron to recruit and retain high calibre individuals with many years experience in finance, technology and media. A flat management structure facilitates direct access to quick and innovative decision making.

At Cameron & Cameron we aim to achieve superior investment performance through accessing private equity style deals not traditionally available to individual investors. We rely on in-depth market research and analysis to ascertain the viability of investments and determine financial returns.

Audio in Cambridgeshire

Plaster-In-Wall Loudspeakers

Concealed Audio Solutions
with inspirational results

amina
TECHNOLOGIES LTD

Amina

Amina SoundUnseen® is a loudspeaker which is plastered in-wall where you would have 'regular' loudspeakers.

Not only do all visual signs of a sound source completely disappear, but the resulting audio quality is astonishing leaving minimal technological impact to create a stunning interior design.

Amina Technologies Ltd is the world's leading supplier of bespoke flat panel loudspeaker solutions, using a revolutionary diffuse sound radiator technology known as NXT to meet the needs, not only of the audio installation industry, but also those of architects, interior designers and all other design conscious specifiers.

Using this latest innovation in sound technology, Amina flat panel loudspeakers are designed to meet the most rigorous installation requirements and provide unmatched clarity of sound reproduction, helping reduce microphone feedback even in the most difficult of acoustically reflective spaces (e.g. glass, ceramics and water). Based around a wide range of formats, Amina specialise in creating bespoke and full custom loudspeakers to blend with or stand out in your chosen design environment

Amina products are suitable for use in fixed installation public address, voice reinforcement, video conferencing and music reproduction, in all types of venue ranging from corporate board rooms, atria, retail mall, leisure areas, museums and exhibitions to churches, sports halls, transport concourses, law courts and residential spaces.

The Company and its international representatives offer a complete service including application and system advice, product design, manufacture and installation through an approved network of professional engineers.

Amina's design and manufacturing headquarters are located in Huntingdon, Cambridgeshire - the heart of Britain's technology belt for aerospace panel production and electronics & audio design excellence. With innovative skills and technical resources at hand, the Company creates cost effective bespoke solutions with a turnaround time second to none.

TERMS AND CONDITIONS

The Agreement

Grapevine Directories Ltd of Whitton's Farm, Waterbeach, Cambridge CB5 9JU provide the listing service on the following terms and conditions set out below to all web site directories under the Grapevine Directory organization.

The invoice is confirmation of the order.

Grapevine Directories does not comply with any conditions applied by the company wanting the listing unless notified at the time of agreement.

In consideration of the listing fee (see rate card) Grapevine Directories Ltd will include your website in the chosen category or categories in the selected Grapevine Directory for a period agreed usually an annual basis (one year).

The order in which each website is listed is at the discretion of Grapevine Directories.

Listing fees are exclusive of VAT. Invoices will be issued and either emailed or sent by surface mail to the company requesting the listing.

The company which agrees the listing agrees to receive electronic invoices and are responsible for complying with all legal requirements in that respect, including without limitation, notifying HM Customs and Excise that you are receiving electronic invoices.

Payment Terms

Our terms are 7 (seven) days net. Payment can be made by cheque or BACCS.

Service standards

This service is provided without warranty. We will take due care to ensure the service remains on-line at all times but will not be held liable in the event of any service disruption however this is caused.

Applicable law

We are based in England. This agreement will be governed by and construed in accordance with English law. No effect will be given to any principle of conflict of laws.

Notices. Any notice required to be given to us can be given only by our receiving an e-mail or prepaid letter at our contact address.

The total limit of our liabilities under this agreement will not exceed the last payment made to Grapevine Directories Ltd.

Grapevine Directories Ltd reserves the right, in its sole discretion, to change, modify, add or remove all or part of this Agreement at any time. We will notify you by email (to the email address you specified when you signed up) of any changes to this agreement.

Termination

This agreement is a subscription which will automatically be renewed unless cancelled by either party providing the other with at least seven days notice by email or paid post.

We can terminate this agreement at any time at our own discretion by providing you with seven days notice by email or paid post. If we terminate this agreement you will not be entitled to a refund.

The listing guidelines

Sites must have UK specific content in English language

Sites must be relevant to the category that they are listed in

Sites must be available 24 hours a day and seven days a week

No sites with 'adult' content will be listed

No sites with illegal content will be listed

Sites that do not meet these guidelines will not be listed and listing fees paid will not be refunded

The decision of which sites to list is at the sole discretion of Grapevine Directories Ltd.
